

ILS World China

The Shanghai office of ILS World serves clients looking to establish a long-term, sustainable presence within China.

China is a huge market with enormous potential. However, registering a foreign company is relatively complicated because it involves approval from multiple local authorities and bureaux.

Chinese company law and its taxation system is undergoing continuous and intricate reform, certain regulations are very often easily misunderstood or ignored by investors which causes unnecessary difficulties.

The Shanghai team is able to provide its clients with the depth and breadth of knowledge required to tackle all these issues through strategic partnerships with local and international law firms, banks, accounting firms, financial consultants and other intermediaries, to ensure clients avoid the pitfalls of setting up in China, expediting their time to market while avoiding costly mistakes.

ILS World employs a variety of multi-disciplined individuals ranging from accountants to experienced company administrators, qualified directors, professional sales managers and enthusiastic office support staff. The multi-lingual team is fluent in Mandarin, English and Cantonese which guarantees unimpeded communications and support.

Our professionals have a lot of experience with the entire spectrum of business entities in China - from Representative Offices to more complex Foreign Invested Enterprises such as Wholly Foreign Owned Enterprises (WFOEs) and Joint Ventures (JVs). The team has worked with clients in a wide range of industry sectors including insurance, sports, entertainment, relocation, information technology and offering general consultancy support.

How ILS World can help:

- Investment planning
- Trading structures
- Location search and selection
- Company registration including Wholly Foreign Owned Enterprise (WFOE), Foreign Invested Commercial Enterprise (FICE), Joint ventures (JV) and Representative Office (RO)
- Special licence applications
- Bank account opening
- Human resources, intellectual property, financial and business
